"Have you tried a sticker chart* ?" How Parents and Professionals can work together to understand Barriers to School Attendance

In our 'Define Fine' workshop we will be discussing issues like:

- School say my child is "fine" when they are there, but at home we see the results of masking
- Attendance is getting lower and we are being threatened with fines and prosecution
- School want medical proof to authorise absence and provide tuition but the wait for CAMHS is long!

**Tuesday 5th April 2022
7.30pm - 9.00pm**

We begin with why it's so important to 'define fine'

We will share our 'Define Fine' resources to help you work with professionals to assess and then plan appropriate and timely support.

*Spoiler alert...it's unlikely to be a sticker chart...

Join us on Zoom for an informative session with Louise Parker Engels from 'Define Fine' - Parent Peer Support for School Attendance Difficulties.
